

BRUNEI SECURITY ANALYSIS REPORT

AI-Assisted Open Source Intelligence Assessment

Analysis Period: November 05, 2026 - November 12, 2026

This report was produced using open-source intelligence analysis. The assessment is grounded in publicly available reporting and should be cross-referenced with primary sources. RSS feed articles are listed in the annex for reference.

Executive Summary

Brunei Darussalam maintained a proactive stance on national and regional security from November 05 to November 12, 2026, marked by significant diplomatic engagements and ongoing defense modernization efforts. A key highlight was the visit of the EU High Representative, underscoring stable and expanding relations with the European Union. The nation actively participated in regional counter-terrorism and maritime security dialogues, reinforcing its commitment to collaborative security frameworks. Cybersecurity remained a focus, with a major conference underway and alerts issued against emerging threats. Concurrently, Brunei is preparing for the delivery of new Airbus H145M helicopters, signaling a continued enhancement of its defense capabilities.

Key Security Developments

- Diplomatic Engagement with European Union

His Majesty Sultan Haji Hassanal Bolkiah Mu'izzaddin Waddaulah received Her Excellency Kaja Kallas, High Representative of the Union for Foreign Affairs and Security Policy and Vice-President of the European Commission, for a two-day visit to Brunei. The audience aimed to advance the ASEAN-EU Strategic Partnership and discuss regional and international matters of mutual importance, highlighting Brunei's role as Country Coordinator for ASEAN-EU Dialogue Relations.

- Enhanced Defense Cooperation with the Philippines

On November 10, 2026, Brunei Darussalam hosted the 10th Joint Defence Working Committee (JDWC) meeting with the Republic of the Philippines in Bandar Seri Begawan. This meeting served as a policy-level dialogue to review existing defense cooperation and identify new areas for collaboration, building on earlier discussions in October 2026 to expand naval engagements and air force training.

- Regional Counter-Terrorism Initiatives

Brunei's Coordinating Minister for National Security, Minister at the Prime Minister's Office, and Minister of Defence II led a delegation to the 7th Sub-Regional Meeting on Counter Terrorism and Transnational Crime (SRM) in Jakarta, Indonesia, on November 7, 2026. During the meeting, it was announced that Brunei Darussalam and Malaysia will co-chair the Senior Officials' Counter-Terrorism Policy Forum in 2027, emphasizing regional cooperation against terrorism, irregular migration, and cyber security.

• Maritime Security Collaboration

The ReCAAP ISC Cluster Meeting 2026 was jointly hosted by the Royal Brunei Police Force and the National Maritime Coordination Centre in Brunei Darussalam. The two-day meeting brought together representatives from several regional countries to share information and strengthen cooperation in addressing maritime security challenges, including piracy and armed robbery against ships.

• Cybersecurity Conference Underway

Brunei's flagship cybersecurity conference, CySec 2026, is currently taking place, focusing on "Protecting critical infrastructure in an age of escalating threat." The event unites government, industry, and defenders from across the region, with opening remarks delivered by the Interim Commissioner of Cyber Security Brunei (CSB).

• Cyber Threat Alerts Issued

The Brunei Computer Emergency Response Team (BruCERT) issued several alerts during this period. On November 10, 2026, an alert was released regarding "XCPE Malware," and on November 9, 2026, an alert warned about "Suspicious Files attachment." An earlier alert on November 3, 2026, concerned "Fake Invoice Attachments."

• Defense Acquisition Milestone: H145M Helicopters

The delivery of the first batch of Airbus H145M helicopters for the Royal Brunei Air Force (RBAirF) is scheduled for November 2026. This follows the signing of a Customer Acceptance Test (CAT) certificate on October 15, 2026, in Donauwörth, Germany, marking a significant step in modernizing Brunei's air capabilities.

• Royal Brunei Armed Forces (RBAF) Internal Activities

The RBAF hosted the Sergeant Major Exchange Programme (SMEP) 2026 with the Singapore Armed Forces (SAF) from November 4 to 6, 2026. Additionally, on November 8, 2026, the RBAF organized a Half Marathon at Bolkiah Garrison in conjunction with its 65th Anniversary.

• Progress in Combating Human Trafficking

Brunei Darussalam's efforts in combating irregular migration, particularly Trafficking in Persons (TIP), were highlighted at the 7th Sub-Regional Meeting on Counter Terrorism and Transnational Crime. The nation's ranking in the United States Trafficking in Persons Report improved to Tier 2 in 2026, marking a second consecutive year of upgrade.

• 35th Anniversary of Russia-Brunei Diplomatic Relations

On November 11, 2026, the Ministry of Foreign Affairs of the Russian Federation issued a press release acknowledging the 35th anniversary of diplomatic relations

with Brunei. The statement noted dynamic cooperation in the security sphere, including consultations between security council secretaries in August.

Cyber Threat Landscape

Brunei's cyber landscape during this period was characterized by active defense measures and public advisories against prevalent threats. The CySec 2026 conference is currently underway, focusing on enhancing the resilience of critical infrastructure against escalating cyber threats, indicating a strong government emphasis on proactive cybersecurity. The Brunei Computer Emergency Response Team (BruCERT) issued multiple alerts, including warnings about "XCPE Malware" on November 10, 2026, and "Suspicious Files attachment" on November 9, 2026. These alerts advise the public to be cautious of unexpected files received via messaging platforms and email, even from trusted contacts, and to disable media auto-download features.

Furthermore, discussions at the 7th Sub-Regional Meeting on Counter Terrorism and Transnational Crime on November 7, 2026, included cyber security as a key regional challenge, with Brunei and Australia expressing satisfaction with their cooperation in this area. This highlights Brunei's commitment to international collaboration in addressing cyber threats. Background: Threat actors known to target Brunei include Sowbug, and APT17 has been named in news in the last 30 days.

Geopolitical Impact and Regional Dynamics

Brunei's recent security and diplomatic activities underscore its commitment to regional stability and a balanced foreign policy. The 10th Joint Defence Working Committee meeting with the Philippines on November 10, 2026, demonstrates ongoing efforts to strengthen bilateral defense ties within ASEAN, particularly in naval engagements and air force training, contributing to a more cohesive regional security architecture. Similarly, Brunei's co-chairmanship with Malaysia for the 2027 Senior Officials' Counter-Terrorism Policy Forum, announced at the 7th Sub-Regional Meeting on Counter Terrorism and Transnational Crime on November 7, 2026, reinforces its role in combating transnational threats alongside other Southeast Asian nations and Australia.

The hosting of the ReCAAP ISC Cluster Meeting 2026 further solidifies Brunei's position as an active participant in enhancing maritime security and combating piracy in the crucial waterways of Southeast Asia. These regional engagements, coupled with the ongoing CySec 2026 conference focusing on critical infrastructure protection, reflect Brunei's comprehensive approach to security, addressing both conventional and

emerging threats.

In terms of relations with major powers, the visit of EU High Representative Kaja Kallas highlights the deepening strategic partnership with the European Union, encompassing trade, investment, and security cooperation. This engagement provides a counterbalance to other major power influences in the region. The 35th anniversary of diplomatic relations with Russia, acknowledged on November 11, 2026, with mentions of dynamic security cooperation, indicates Brunei's diversified diplomatic portfolio. While no direct incidents were reported in the South China Sea during this period, the area remains an "Elevated" hotspot due to overlapping territorial claims, as noted by SecurityStudies.info, and was a focus of the earlier CARAT 2026 maritime exercises with the US. Brunei's continued military exercises with the US, such as the recent Pahlawan Warrior 26, further demonstrate its strategic alignment and efforts to enhance interoperability with key partners in the Indo-Pacific.

EU Relations and Implications

Brunei's relations with the European Union during this period were notably strengthened by the two-day visit of Her Excellency Kaja Kallas, High Representative of the Union for Foreign Affairs and Security Policy and Vice-President of the European Commission. Her audience with His Majesty Sultan Haji Hassanal Bolkiah Mu'izzaddin Waddaulah underscored the stable and close working relationship between Brunei and the EU, particularly through multilateral platforms like the ASEAN Regional Forum and the Asia-Europe Meeting. Discussions focused on advancing the ASEAN-EU Strategic Partnership across priority areas, including trade, investment, and security, and exchanging views on regional and international matters. Brunei's ongoing role as Country Coordinator for the ASEAN-EU Dialogue Relations further solidifies its commitment to strengthening this partnership through the ASEAN-EU Plan of Action (2023-2027).

The security and cyber developments observed, such as Brunei's active participation in regional counter-terrorism and maritime security initiatives, and its focus on cybersecurity through the CySec 2026 conference and BruCERT alerts, align well with EU interests in regional stability and digital cooperation. The EU's existing cooperation projects with Brunei span sectors like Development Cooperation, Trade & Investment, Infrastructure & Transport, Education & Skills, and Governance & Rule of Law, indicating a broad engagement. The stable outlook of the EU relationship, assessed in August 2026, suggests a conducive environment for continued collaboration, particularly in areas like cyber resilience and combating transnational crime, which are shared priorities.

Military and Defense Analysis

Brunei's military and defense posture during this period reflects a continued emphasis on modernization and regional interoperability. A significant development is the impending delivery of the first batch of Airbus H145M helicopters for the Royal Brunei Air Force (RBAirF) in November 2026. This acquisition of six H145M helicopters is intended to replace the decommissioned Bölkow BO 105 helicopters and will significantly enhance the RBAirF's operational capabilities for missions such as close air support, aerial observation, combat search and medical evacuation, and special forces insertion. The H145M also offers potential for future manned-unmanned teaming (MUM-T) capabilities, indicating a forward-looking approach to defense technology.

In terms of force posture and exercises, the Royal Brunei Armed Forces (RBAF) engaged in a Sergeant Major Exchange Programme with the Singapore Armed Forces from November 4 to 6, 2026, fostering professional development and bilateral ties. While outside the immediate reporting period, the recent Exercise Pahlawan Warrior 26 (August 2026) with the US Army Pacific and the CARAT Brunei 2026 maritime exercise (September 2026) with the US Navy and Coast Guard demonstrate Brunei's ongoing commitment to enhancing readiness and interoperability with key allies. These exercises focused on jungle operations, maritime security, anti-submarine warfare, and interdiction operations, particularly in the South China Sea. The 10th Joint Defence Working Committee meeting with the Philippines on November 10, 2026, further highlights Brunei's efforts to expand defense cooperation, including naval engagements and air force training, within the ASEAN framework. These activities collectively indicate a steady, albeit modest, modernization program and a focus on strengthening capabilities through strategic partnerships and regional cooperation.

Outlook and Forecast

Short-term trends (1-3 months): Brunei is expected to continue its active diplomatic and security engagements in the immediate future. The delivery of the Airbus H145M helicopters will be a key event, likely followed by integration and training phases for the Royal Brunei Air Force, enhancing its operational capabilities. The momentum from the CySec 2026 conference will likely translate into continued national cybersecurity initiatives and public awareness campaigns, especially given the recent BruCERT alerts. Brunei's role in regional counter-terrorism efforts will remain prominent, particularly as it prepares to co-chair the Senior Officials' Counter-Terrorism Policy Forum with Malaysia in 2027. Bilateral defense dialogues, such as the recent one with the Philippines, are expected to lead to concrete

cooperation projects in the coming months.

Critical flashpoints and risk areas: The South China Sea remains a persistent flashpoint due to overlapping territorial claims, although Brunei maintains a low-profile diplomatic approach. Any escalation in this region, even if not directly involving Brunei, could impact its maritime security and economic interests. The ongoing threat of transnational crime, including drug trafficking and human trafficking, as evidenced by recent arrests and Brunei's improved TIP ranking, requires sustained vigilance and cross-border cooperation. The increasing sophistication of cyber threats, highlighted by BruCERT's alerts and the focus of CySec 2026, poses a continuous risk to critical infrastructure and national digital security.

Indicators to monitor: Key indicators to monitor include the operational integration of the new H145M helicopters into the RBAirF, which will demonstrate the practical impact of defense modernization. Progress in implementing the outcomes of the 10th Joint Defence Working Committee meeting with the Philippines and the ReCAAP ISC Cluster Meeting will indicate the effectiveness of bilateral and regional security cooperation. The frequency and nature of cyber incidents reported by BruCERT, along with government responses and policy updates following CySec 2026, will be crucial for assessing the evolving cyber threat landscape. Further diplomatic engagements with the EU and other major powers will also be important to observe for shifts in Brunei's geopolitical alignment and economic partnerships.

Strategic recommendations: Brunei should continue to prioritize its defense modernization programs, ensuring that new acquisitions are effectively integrated and personnel are adequately trained. Strengthening regional security partnerships through joint exercises and information-sharing mechanisms, particularly in maritime and counter-terrorism domains, is vital for collective security. Investing further in national cybersecurity capabilities, including threat intelligence sharing and public awareness campaigns, is paramount to protect critical infrastructure and combat cybercrime. Diplomatically, Brunei should leverage its role as Country Coordinator for ASEAN-EU Dialogue Relations to foster deeper security and economic cooperation, while maintaining balanced relations with other major global powers to safeguard its national interests amidst complex geopolitical dynamics.

• Beyond the podium: How para athletes Lê Văn Công and Muhammad Ammar are driving social change (2026-11-11 22:18)

NAGOYA, JAPAN – Vietnamese para powerlifter Lê Văn Công has achieved what most athletes can only dream of. He won gold at the 2016 Rio Paralympics, setting a Paralympic record with a 183kg lift in the men’s 49kg category. He later claimed bronze at the 2024 Paris Paralympics, and silver at the 5th Asian Para Games in Japan 2026, securing Vietnam’s first medal at the Games. But for the 42-year-old, powerlifting has given him more than a place on the podium; it has allowed him to travel, meet athletes from different countries, and experience cultures beyond his own. “It has given me a new environment and helped me become more confident and open-minded,” he said. Công was among seven Global Team Toyota Athletes selected to represent their countries at the recent 5th Asian Para Games 2026 in Aichi-Nagoya, Japan, where athletes competed across six disciplines: powerlifting, cycling, athletics, swimming, gymnastics and badminton. Through the initiative, Toyota aims to support athletes not only in their sporting careers, but by helping them use their story to inspire others beyond the sporting arena. Công is currently collaborating with Toyota Motor Asia on a project supporting children and young people with disabilities, leveraging sport and […] This story 'Beyond the podium: How para athletes Lê Văn Công and Muhammad Ammar are driving social change' appeared first on The Scoop.

- XPENG makes official Brunei debut with X9, L03 AND G6, bringing a new era of intelligent mobility (2026-11-07 03:25)

BANDAR SERI BEGAWAN — Brunei’s automotive market has a new name to watch, as XPENG officially makes its debut in the country with the launch of three models — the X9, L03 and G6 — bringing a different approach to how people experience mobility. Unveiled by Imperial Motors Sdn Bhd at its showroom in Katok Point on November 6, the launch marks the arrival of a brand built around intelligent technology, connectivity and electric mobility. For Bruneian motorists who have been following XPENG’s introduction to the local market, the announcement marks the opportunity to experience a new generation of automotive technology first-hand, backed by an established local automotive distributor, Imperial Motors Sdn Bhd. Three XPENG Models for a new generation of mobility XPENG X9 At the top of the line-up is the XPENG X9, a premium seven-seater electric MPV designed around space, comfort and convenience. With its futuristic design, spacious cabin and intelligent features, the X9 seven-seat configuration makes it particularly relevant for families who need room for passengers, while its premium positioning and focus on passenger comfort also make it an option for those seeking a more refined people-carrier experience. XPENG L03 The XPENG L03 introduces a more […] This story 'XPENG makes official Brunei debut with X9, L03 AND G6, bringing a new era of intelligent mobility' appeared first on The Scoop.
